Always striving for a safer and healthier Randolph County

Public Health
Prevent. Promote. Protect.

Randolph County Health Department

FY 2024 ANNUAL REPORT

Vision, Mission and Values

The Randolph County Health Department is a Certified Local Health Department that provides environmental health and clinic services through the operation of programs, services, and community partnerships.

VISION

Our vision is to lead Randolph County to be one of the healthiest counties in Illinois.

MISSION

Our mission is to provide public health services directed toward the prevention of disease, promotion of health, and improvement of the quality of life for Randolph County citizens.

- Randolph County Resource Guide

RESIDENTIAL SHARPS PROGRAM

A new program was started in July 2024 with the purpose of helping county residents properly dispose of sharps. From July 2024 to December 2024 there were 73 sharp containers given out into the community. Once the containers are full, they are returned to the health department and disposed of in the sharp container bin in our lobby. From there Stericycle is contracted to pick up the containers once a quarter.

STAFF
